Dear Sir,

I was just informed by the Texas Jail Commission our jail has been placed into "noncompliance" status due to multiple and continuing problems in our medical infirmary. I was also just given a copy of an email from you to Lt. Jeremiah Richards describing recent voicemails between you and the TJC and your proposed "corrective action plan."

I recognize CCS has just recently become the new parent company overseeing our medical services. I also recognize, your purchase was obtained with full knowledge of the medical provider, CHC, to include the number of inmates, status of the infirmary and associated medical statistics. We are now embroiled in 3 separate lawsuits related to medical care, or the lack there of, and I understand three more inmates are waiting on the payment of the court filing fee before they can file their suits.

This is unacceptable and cannot continue. Your corrective action plan must include proper staffing and better oversight of medical protocols and procedures. This must be implemented immediately, to include the hiring of staff, as required in the current contract. This must be completed within the next thirty days or it will be necessary to look to other means to correct the medical problems we are experiencing.

Tommy Gage
Sheriff
